

DESPERATE HOUSECAT

Tiggi #A612997

Tiggi is gorgeous. Brought to TLAC after 5 years because her owners were moving, she was very scared in the shelter environment. She went to live in a foster home and has been doing great! Her foster mom says that **Tiggi ‘tolerates her foster siblings as long as they give her plenty of space. She loves to hang out on the couch with me and watch tv.’** She is very affectionate and cuddly.

- ◆ **8 years old, tortie, spayed**
- ◆ **Front Declawed – should live indoors only**
- ◆ **Does not do well in a shelter environment**
- ◆ **Tolerates her foster siblings, but would be happiest in an only pet household**
